AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce our intention to conduct a 5-year status review under the Endangered Species Act of 1973, as amended, for the polar bear (*Ursus maritimus*). The polar bear was listed as threatened in 2008. A 5-year status review is based on the best scientific and commercial data available at the time of the review. We are requesting submission of information that has become available since the last review of the species in 2017.

DATES: To ensure consideration of your comments in our preparation of this 5-year status review, we must receive your comments and information by **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**.

However, we will accept information about any species at any time.

ADDRESSES: Please submit your information on the current status of the polar bear by one of the following methods:

- U.S. mail or hand-delivery: Public Comments Processing, Attn: FWS–R7–ES–2021–0075, U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, Virginia 22041–3803; or

SUPPLEMENTARY INFORMATION: We are initiating a 5-year status review under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), for the polar bear (*Ursus maritimus*). A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on this species that has become available since the last 5-year review was conducted in 2017.

Why Do We Conduct A 5-Year Review?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Further, our regulations at 50 CFR 424.21 require that we publish a notice in the *Federal Register* announcing those species under active review. For additional information about 5-year reviews, go to <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What Information Do We Consider in Our Review?

In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(1) The biology of the species, including, but not limited to, population trends, distribution, abundance, demographics, and genetics;

(2) Habitat conditions, including, but not limited to, amount, distribution, and suitability;

(3) Conservation measures that have been implemented that benefit the species;

(4) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

(5) Other new information, data, or corrections, including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery programs for the species.
